Talk to O'Nesky to make sure he didn't go to this one and if he did get his feedback. If you think it's worthwhile then lets send someone. I'm trying to get Aaron Brown to go to the class.

Subject: FW: TLO ADV - FACIAL RECOGNITION

Sir,

This looks like an interesting class. I'd like to get a couple people into it. They have to be TLOs, but it's free and only one day, so no need for a hotel (just a long day of travel).

Thanks,
Ted

TLO ADVANCED: FACIAL RECOGNITION
Thursday, June 20, 2019
8:00a.m. - 5:00p.m.
San Jose City College
2100 Moorpark Avenue San Jose, CA 95128

FACIAL RECOGNITION

Technology and Procedures

Course Date: **Thursday, 0800- 1700 Hours**

Location: **San Jose City College**
2100 Moorpark Ave., Technology Building
San Jose, Ca 95128

Course Description / Objectives: **Facial Recognition (FR) is becoming a key part in ever growing "tool kit" for Law Enforcement Agencies. This course will provide an in-depth overview of the current state of Facial Recognition Technology, legal aspects, and best deployment practices. It will then look to where FR is headed, showing nationwide, cloud based databases of 18 million open source images of LEA mugshots and known sex offenders. Attendees will get the chance to work through real-world scenarios on Facial Recognition databases, utilizing enhancement tools with step-by-step instruction. While you will learn about Facial Recognition technology and best deployment practices, this course will utilize Vigilant Solutions' FaceSearch program. Attendees will see how using millions of open source images in an established gallery complements their current local booking images.**

Learn how to maximize your investigative efforts by implementing FR technology and improve in almost every facet of the job, including both areas of proactive field enforcement and investigations. At the conclusion of this class, each attendee will retain access to FaceSearch with login credentials for 30 days.

Target Audience / Discipline: **This instruction is designed for Active peace officers, state investigators, federal agents, military investigative personnel, or other government employees working within the public safety / homeland security community. Attendees must be currently employed by a government LAW ENFORCEMENT agency operating in the NCRIC's Area of Responsibility (AOR) - see below.**

Cost: **Free**

Registration: **Registration must be completed on-line at www.ncric.org in the Members Only section (if you are not a member, click on the link to join). Click on the "Registration" Tab.**

ALL ATTENDEES ARE AUTOMATICALLY PLACED ON A WAITING LIST AND WILL BE NOTIFIED

BY EMAIL OF THEIR ACCEPTANCE AND REGISTRATION IN THE COURSE ONCE THEY ARE VETTED. NO "WALK UP" REGISTRATIONS!
